Cumulative Index

NEED to find something published during 1984 in TEXTILE CHEMIST AND COLORIST? This index can help you find it quickly either by author or by subject matter.

For example, if you know that the article you are looking for was written by Goodson, a check of the INDEX OF AUTHORS shows that L. Aubrey Goodson Jr. is the author of title 4. The INDEX OF TITLES, in turn, identifies title 4 as "Formaldehyde and the Textile Industry," and shows that it was published 1-15/1 [1 = the January issue; 15 = the page number in the January issue; and the 1 following the virgule (/) = the continuous pagination for calendar 1984].

If you don't know who wrote the article, you can locate it by using the KEY TERM INDEX. You know, for example, that the article is about *formaldehyde*. Finding that term in the KEY TERM INDEX will give you the title numbers of all articles published thus far this year pertaining to formaldehyde. Each article is keyed with several terms to provide a crosscheck between broader terms and more specific terms, thereby reducing the search even further.

Copies of individual articles (whether in the form of reprints, tearsheets or photocopies) are available at $3 each (prepaid U.S. funds net; surface mail) from TEXTILE CHEMIST AND COLORIST, P. O. Box 12215, Research Triangle Park, N. C. 27709; telephone 919/549-8141.

The magazine also is available on microfilm from University Microfilms, Ann Arbor, Mich. 48106. In addition, the magazine is abstracted by CHEMICAL ABSTRACTS, ENGINEERING INDEX, TEXTILE TECHNOLOGY DIGEST, TITUS (Institut Textile de France) and WORLD TEXTILE ABSTRACTS.

Key Term Index

The numbers to the right of each entry refer to the number(s) assigned to the titles listed in the INDEX OF TITLES.

Index of Titles

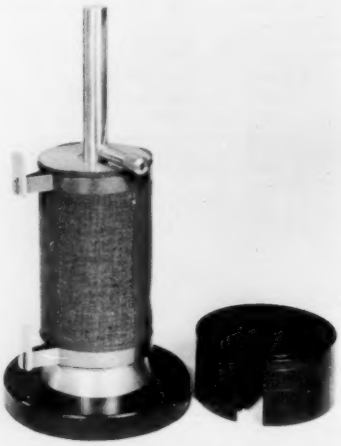
The numbers to the right of each entry provide the issue and page number for that title. Title 4, for example, was published 1-15/1 [1 = the January issue; 17 = the page number in the January issue; and the 1 following the virgule (/) = the continuous pagination for calendar 1984].

(1) National Officers Are Named for 1984 1-5
(2) AATCC Research Committee Activity. . 1-10
(3) Awards: A Call for Nominations 1-12
(4) Formaldehyde and the Textile Industry. By L. Aubrey Goodson Jr., Dan River Inc. 1-15/1
(5) Visual Illusions and the Perception of Stripiness. By Ralph McGregor, North Carolina State University 1-21/5
(6) Effect of Insecticides on the Colorfastness of Acid and Disperse Dyes on Nylon and Polyester. By AATCC's Midwest Section, 1983 Intersectional Technical Paper Competition 1-25/9
(7) Care Labeling: A New Regulation Takes Effect. By Laura G. Crumpler, Director of Membership Services, AATCC 1-39/22
(8) New FTC Regulations Covering Care Labeling. By Earl W. Johnson, Federal Trade Commission. 1-41/24
(9) AATCC: A Unique Role in Textile Wet Processing. By E. James Stavrakas, AATCC President. 1-46/29
(10) A Review of New Products for the Dyehouse and the Lab 1-48
(11) AATCC Council Highlights 2-12
(12) Awards: A Call for Nominations 2-14
(13) A Survey of Drying Machinery. A survey conducted under the auspices of AATCC Committee RA95, Wet Processing Machinery. By Joseph A. Okey Jr, Birch Brothers Southern Inc. 2-17/31
(14) Determination of Relative Strength and Shade of Textile Dyes. By Rolf G. Kuehni, Mobay Chemical Corp. 2-27/41
(15) Fourier Transform Infrared Analysis of Textiles. By Nancy M. Morris, Robert A. Pittman and Ralph J. Berni, Southern Regional Research Center, U.S. Department of Agriculture 2-30/43
(16) Moisture Related Properties of Hydrolyzed Polyester Fabrics. By Lynne Macy Olson and Manfred Wentz, University of Wisconsin-Madison. 1983 Student Paper Competition 2-35/48
(17) Awards: A Call for Nominations 3-8
(18) The Mechanism of Carrier Dyeing. By W. Ingamells and M. N. Thomas, University of Wales 3-11/55
(19) A Descriptive Terminology for Barré. By Herbert T. Pratt, The Du Pont Co. 3-17/61
(20) Perceived Fiber Preferences for Cold Weather Indoor Clothing. By B. J. Margerum, University of Nevada 3-25/63
(21) Formaldehyde Release from Cotton Fabric. By Eugene C. Roberts and Anthony J. Rossano Jr., WestPoint Pepperell Inc. 3-29/67
(22) *Book Review:* The Colour Science of Dyes and Pigments. By Keith McLaren, Instrumental Colour Systems Ltd., Newbury, England. Reviewer: Rolf G. Kuehni, Mobay Chemical Corp 4-8
(23) *Book Review:* The Physics and Chemistry of Color. The Fifteen Causes of Color. By Kurt Nassau. Reviewer: Rolf G. Kuehni, Mobay Chemical Corp. 4-11
(24) AATCC Council Highlights 4-12
(25) AATCC Research Committee Activity 4-14
(26) Distributed Control Systems Facilitate Improved Process Management Capabilities at Graniteville Co. By Rolston M. Wilder Jr., Graniteville Co. 4-19/73
(27) Field Trial of the British ISO Proposal for the Instrumental Assessment of the Degree of Staining. By Rolf G. Kuehni, Mobay Chemical Corp. 4-22/76
(28) Shear Thinning Index for Printing Thickeners. By T. H. Guion, L. F. Foushee, T. Pak and W. N. Somerville, North Carolina State University 4-25/79
(29) Carpet Dyeing in 1984. By G. Robert Turner, Consulting Editor 4-31/85
(30) *Book Review:* Handbook of Fiber Science and Technology. Vol. 1, Fundamentals and Preparation, Part A, and Vol. 11, Functional Finishes, Part A. Edited by Menachem Lewin and Stephen B. Sello. Reviewer: J. W. Weaver, University of Delaware 4-33/87
(31) Some Observations on Foam Sizing. By Warren S. Perkins and Robert P. Walker, Auburn University 4-37/89
(32) Formaldehyde Release from DP Shirting Fabrics. By Billie J. Walters, University of Georgia, and Charles J. Noel, Virginia Polytechnic Institute 5-11/92
(33) High Performance Liquid Chromatographic Analysis of Durable Press Finishes. By Keith R. Beck, Dilip M. Pasad and Karen S. Springer, Purdue University; and C. M. Player, Cone Mills Corp. 5-15/96
(34) Formaldehyde Release from Durable Press Cotton Fabric. By B. A. Kottes Andrews and Robert M. Reinhardt, Southern Regional Research Center, U.S. Department of Agriculture 5-21/100
(35) Shrinkproofing Treatments Have a Profound Effect on Soiling Characteristics of Wool. By R. D. Mehta, Texas Tech University 5-27/106
(36) A Glossary of AATCC Standard Terminology. Or How To Say What You Mean and Avoid Confusion. By Robert S. Merkel of Florida International University, Chairman of AATCC Committee RA93, Terminology 5-30/109
(37) A Survey of Yarn Dyeing Equipment. A survey conducted under the auspices of AATCC Committee RA95, Wet Processing Machinery. By Bob L. McConnell, Burlington Industries 6-13/112
(38) Wet Processing at ITMA: What Was New? By Dennis Balmforth, Institute of Textile Technology 6-17/116
(39) AATCC Workshop: An Update on Wet Processing Machinery. By G. Robert Turner, Consulting Editor 6-30/129
(40) Problems in Low Water Coloration: Foam and Kiss-Roll Techniques. By AATCC's Southeastern Section, 1983 Intersectional Technical Paper Competition 8-15/131
(41) *Short Communication:* Byssinosis Research: An Update on Washed Cottons. By I. W. Kirk, Southern Regional Research Center, U.S. Department of Agriculture 8-29/144
(42) 1984 International Conference & Exhibition 8-31/146
(43) TLC Detection of Benzoyl Peroxide on Textiles. By Cathi Chambley and Theresa A. Perenich, University of Georgia, 1983 Student Paper Competition 8-37/150
(44) Dyes and Dyeing Procedures for Cotton and Cotton Blends. By G. Robert Turner, Consulting Editor 8-41/154
(45) *Letters:* SDC Seeking Comments on Color Difference Formula. By F.J.J. Clarke, R. McDonald and B. Rigg, Colour Measurement Committee, Society of Dyers and Colourists 8-46/158
(46) *Letters:* Shear Thinning Index for Printing Thickeners. By Allan O. Mogensen, Rutgers University. Reply. By Thomas H. Guion, North Carolina State University 8-46/158
(47) AATCC's International Conference & Exhibition Will Meet Next Month at the Hilton in Chicago 9-17/160
(48) Ralph McGregor To Receive The Olney Medal 9-44
(49) George S. Wham To Receive Chapin Award 9-46
(50) Victor T. Fahringer, Inventor of the Jet Dyeing Machine, to Receive the Millson Award 9-48/184
(51) Cross-Dye Styling of Automotive Upholstery. By Anthony Anton and James C. Browne, The Du Pont Co. 9-49/185
(52) What's Our Objective: Survival or Growth? By G. Robert Turner, Consulting Editor ... 9-54/189
(53) Thanks To Our Corporate Allies. By Laura G. Crumpler, AATCC. 9-56/191
(54) Northern New England Section Honors Its Past Chairmen 9-62
(55) *Book Review:* Handbook of Chemical Specialties: Textile Fiber Processing, Preparation and Bleaching. By John E. Nettles. Reviewer: Herbert T. Pratt, The Du Pont Co. 10-8
(56) Philadelphia Textile: A Century of Career Education. By Anders R. Back 10-13/199
(57) Synopsis of ISO Subcommittee Meetings in Manchester. By Fernand Schlaeppi, Chairman, AATCC International Test Methods Committee 10-16/202
(58) Chemically Coated Open End Cotton Yarns for Denim. By Jerry P. Moreau, Southern Regional Research Center, U.S. Department of Agriculture 10-21/205
(59) Paratechnical Training in Wet Processing. By Vernon C. Smith, Collins & Aikman Corp., and E. James Stavrakas, J. C. Penney Co. 10-26/210
(60) Formaldehyde Release with Low Wet Pickup Finishing. By B. A. Kottes Andrews and Robert J. Harper, Southern Regional Research Center, U.S. Department of Agriculture 10-27/211
(61) A Conversation with Kurt Zimmerli of Zima Corp. By G. Robert Turner, Consulting Editor 10-33/216
(62) *Letters:* In Defense of Sulfur Dyes. By Leon Tigler, Consultant 10-36/219
(63) Piedmont Section Recognizes AATCC Corporate Members 11-11
(64) Discriminating Between Unwashed and Washed Cotton Fibers. By AATCC's Gulf Coast Section, 1984 Intersectional Technical Paper Competition 11-13/220
(65) Textiles from the Consumer's Viewpoint. By Mary E. Powers, Good Housekeeping Institute and Magazine 11-21/228
(66) Shrinkage Control of Cotton Knits by Mechnical Techniques. By Bobby W. Gordon Jr., Donald L. Bailey, Brian W. Jones, Rob L. Stone and R. D. Noell, Cotton Inc. 11-25/232
(67) Afterwashing and Formaldehyde Release Properties. By Robert M. Reinhardt and B. A. Kottes Andrews, Southern Regional Research Center, U.S. Department of Agriculture 11-29/235
(68) Comparison of Chemical and Physical Properties of Conventionally and Foam Finished Fabrics. By AATCC's Southeastern Section, 1984 Intersectional Technical Paper Competition 12-13/241
(69) The Role of Dye Diffusion in the Ozone Fading of Acid and Disperse Dyes in Polyamides. By R. A. F. Moore, S. B. Ruetsch and H.-D. Weigmann, Textile Research Institute 12-23/250
(70) Chicago was AATCC's kind of town. A pictorial report of the 1984 International Conference & Exhibition 12-30/257
(71) Evaluation of Formaldehyde Scavengers. By Charles Tomasino and Maylon B. Taylor II, North Carolina State University 12-33/259
(72) Formaldehyde-Free Durable Press Finish-

WRINKLE RECOVERY

Testing

WRINKLE RECOVERY REPLICAS This series of 3-dimensional plastic replicas is used in evaluating the appearance of textile fabrics after induced wrinkling by means of the AATCC Wrinkle Tester (AATCC Test Method 128). By using these replicas, values of 5, 4, 3, 2 or 1 may be assigned in rating a fabric. The set of five replicas, in a protective case, is available from the AATCC Technical Center for $255. (order no. 8390).



AATCC WRINKLE TESTER This standard wrinkling device is the major piece of equipment used in AATCC's Test Method 128 which measures the wrinkle recovery of fabrics. The specimen fabric is wrinkled in the tester under a predetermined load for a prescribed period of time at standard atmospheric conditions. The specimen is then reconditioned in the standard atmosphere and evaluated for appearance by comparing it with the Standard AATCC wrinkle recovery replicas. This wrinkling apparatus is based on a development of ENKA/AKU research and is available from the AATCC Technical Center for $495. (order no. 8391).
